National Cybersecurity Review (NCSR) Assessment

Each organization completing the NCSR / Cybersecurity Performance Goals (CPG) will follow the process outlined below for successful completion.

NCSR/CPG Cybersecurity Questionnaire

The NCSR/CPG offline survey can be used year-round, replicates each of the NCSR questions with additional guidance, and is used to create a tailored Plan of Action & Milestones (POA&M) document.

Plan of Action & Milestones

Each participating organization will receive a Plan of Action and Milestones (POA&M) document that identifies areas of improvement and suggested corrective actions.

The plan identifies tasks that need to be accomplished and the estimated resources needed to accomplish the various elements outlined in the POA&M.

Enhancement Recommendation Workbook

Each organization will receive prioritized recommendations for implementation in the short term, medium term, and long term to address their current cybersecurity posture.
